

The Alchemy of Saint Germain

The Elixir

VIBRATIONAL HERBAL ESSENCE

Saint Germain's "Magical Elixir of Life" is now available to all who seek it.

"The Elixir is an Accelerator and allows the physical body to hold more Light and higher frequencies. How that extra energy boost is utilized is up to the individual."

– Ascended Master Saint Germain

Experience the mysterious Elixir of Life that Saint Germain created for himself and drank daily. It helped him hold a very high frequency, making it possible for him to live in the same body for over 300 years and never age past 40-45 years in appearance and health.

"This formula was given to me directly by Saint Germain. He instructed me to prepare his Elixir of Life as a VIBRATIONAL ESSENCE. It carries the vibration of the ingredients, exactly as do Bach Flowers and other flower or gem essences and homeopathies. This enables it to work on the higher dimensional bodies, where all creation begins the process of manifestation. As an essence, all possible allergy issues are also avoided." – Troika Saint Germain

Instructions: Refrigerate the Elixir or store it in a cabinet away from direct light. Treat the Elixir as a homeopathic product. Keep it away from caffeine sources and/or strong mints, like Peppermint tea.

Take Daily: 1 to 3 drops of Elixir into a liter of pure water. Use the very best quality of water available to you. You may also add lemon or place into pure fruit juice that has no added sugar. Sip the Elixir throughout the day. Each sip is a dose. One big gulp is only ONE dose. Taking more sips, more often, is best. **Strong Intentions and Affirmations are recommended before each sip.**

The Elixir comes in a 1 oz cobalt blue bottle with an eye dropper. One bottle will last from 6-12 months or more using the recommended dosage which is only 1-3 drops per day. It has no expiration date and will last indefinitely if kept out of strong light.

Results will vary and be uniquely individual to each person. Sometimes a slight Detox occurs. Please have an open mind without preconceived expectations.

We do not accept returns or issue refunds for the Elixir. Please consider it as an experiment.
